Fully automatic single axis winding machine description:

1. This machine is suitable for runway type; square type; copper-clad aluminum thin wire voice coil, RFID card coil, wireless charger coil, vibration motor coil, hard disk coil, linear motor and various **wire diameters 0.018-1.0MM**; height 20MM The following is the winding of bobbinless coils.

2. This machine adopts a full Chinese motion control system. It is simple to operate, has high efficiency and good stability, and can realize high-yield production with one person watching multiple machines throughout the day.

3. The moving part of this machine adopts servo motor with imported bearings and screw rod, which has good rigidity, high precision and durability.

4. Optional parts of this machine: magnetic rod automatic feeding mechanism, runway-type voice coil shaping mechanism, servo tensioner, automatic adding release oil device, machine lamp, copper-clad aluminum thin wire voice coil mechanism and others required by the customer. Non-standard institutions.

5. Main components of the equipment:

- ① cylinder: CPC
- ② solenoid valve: SMC
- ③ screw: Taiwan TBI
- ④ guide rails: Taiwan Shanghai Banking Corporation
- ⑤ Servo motor: Hechuan
- ⑥ Bearings: NSK
- ⑦ Tensioner: Chuangyi
- ⑧ Timing belt: Japan Uni Tower
- ⑨ switch: Jinhong
- ⑩ Sensor: Omron

PACKAGING:

Packaging Material: Carton/Wooden case with foam inside.

1.General package(Paper carton or plastic bag): For small equipped parts for High Torsion Transformer Bobbin Winding Machine, Package it with form and pack paper to guarantee unbroken during the transport.Wooden case package: For larger scale High Torsion Transformer Bobbin Windind Machine,we have special skilled carpenter, who would make the proper wooden case with exact thickness,density,length. The up arrow ↑marked on the outer wooden case. Buffer material would be put in the wooden case to prevent crack and shock.

Market Area

We work closely with Southeast Asia, European, America, South America, Australia, New Zealand partners to provide local sales, support and service assistance for coil winding machines.

Founded in 1993, KIOXIA LIGHT RING EQUIPMENT GROUP CO.,LTD. has earned a strong reputation as a leading manufacturer of high-performance winding machines, complemented by associated production equipment and professional technical support. A standout in its portfolio is the KX-800Z Fully automatic single-axis self-adhesive wire winding machine—an advanced solution engineered for precision in self-adhesive wire winding. Its single-axis design, combined with full automation, ensures consistent quality, operational efficiency, and superior performance in producing self-adhesive wire components, embodying the company's commitment to excellence.

Beyond offering specialized equipment like the KX-800Z Fully automatic single-axis self-adhesive wire winding machine, KIOXIA LIGHT RING delivers highly cost-effective comprehensive manufacturing solutions. These solutions address the production needs of diverse wound components, including transformers, chokes, and more, providing reliable support for efficient, high-quality processing across a wide range of winding applications
